MISSION & VISION

The logo consists of the letters 'W' and 'C' in a stylized, handwritten font. The 'W' is red and the 'C' is black. They are enclosed within a white oval shape.

Inspired from the German term "Wissen" which means Knowledge, Wissen Consulting aims at enhancing the quality of technical services delivered by bridging the missing links in knowledge, skills, and processes for global industry requirements.

Leveraging on emerging IT technologies and capabilities, we strive to bring about the best Technology Integration to meet the requirements of our customers.

We use our core strength in IT Security and Virtualization pivotally in every solution we design.

We ensure delivering the best possible solution and promise to continue doing so.

MANPOWER SERVICES

IT Managed Services /Manpower Outsourcing

- ▶ We execute projects and operations for specific Centers of Excellence under the Managed/Co-Managed engagement model. Managed or co-managed service projects/operations are executed from on-site/off-site wherein we bring expertise and knowledge around process guidelines, demand & resource management and technical expertise. These projects are augmented with our expertise in staffing, by providing skilled resources to the client in a short span of time.

Hire Train Deploy

- ▶ We provide staff augmentation and comprehensive talent management solution for IT. We have crafted & perfected a delivery model that sources, screens and employs only the highest quality candidate from a diverse pool of IT professionals in the best turn-around time.

Our campus to corporate program provides qualified and ready to deploy resources for our clients. All hired candidates are trained in the necessary skill set by our technology experts. The qualified resources are then deployed to the client.
